## Career Objective

Highly motivated **Bachelor of Technology graduate (CSE)** specializing in **Frontend Web Development** with proven proficiency in the **MERN stack** (MongoDB, Express, **React.js**, Node.js) and modern UI frameworks like **Tailwind CSS**. Possesses strong foundations in data structures and algorithms (5-Star Gold Badge in Java). Eager to leverage technical and project skills in a challenging Frontend Developer role.

## Education

### Bachelor of Technology in Computer Science (CSE) |

- Sushila Devi Bansal College of Technology, RGPV, Indore (M.P) | May 2025

## Skills

- **Programming Languages:** JavaScript, SQL.
- **Front-End Technology:** HTML5, CSS3, JavaScript, ReactJS.
- **Back-End Technology:** Node, Express, MongoDB, MySQL.
- **Tools:** Git & GitHub.

## Projects

### Tour & Travels Platform (MERN Stack: MongoDB, Express, ReactJS, Node.js)

- Developed a responsive static website showcasing global destinations using React.js for a modern, optimized user interface.
- Integrated Node.js/Express.js APIs with MongoDB for dynamic content delivery, ensuring seamless data flow.
- Outcome: Improved user engagement through optimized, accessible design principles.

### Kids E-Learning Platform (HTML5, CSS3, JavaScript, PHP, MySQL)

- Built an interactive e-learning platform with gamified UI using HTML5, CSS3, and JavaScript to enhance user participation.
- Collaborated with the backend team to integrate PHP/MySQL for secure user registration and progress tracking functionalities.
- Outcome: Received positive feedback from 50+ beta users for the engaging design and intuitive learning experience.

## CERTIFICATIONS AND RECOGNITION

- Web Development Certificate (HTML, CSS, JavaScript, React.js) – **Acme Grade 5-Star**
- Gold Badge in Java on **Hacker Rank** (Demonstrates strong problem-solving skills)
- Successfully completed **Hacker Rank's 10 Days of JavaScript Challenge**.
